

Helping those who help patients

Platinum Lab & Pharmacy Refrigerators

The So-Low Platinum Line Lab and Pharmacy Refrigerators provide the reliability and security essential for the protection of sensitive samples and have been approved by the CDC requirements for vaccine storage. The Platinum Line Refrigerators maintain temperatures between 2°C - 8°C. The refrigerators come standard with adjustable shelves, flexible temperatures settings and an alarm. A 4.3" color touch screen allows users to control alarms, enter data, time synchronization, transfer files via FTP and USB.
